

The clearing rake to prepare tree cuts and materials on the forest floor

Application areas

- Cleaning and caring for large areas.
- Collecting tree cuts and root materials.
- Landscape maintenance.
- Clearing small root stocks.
- Supporting follow-up machines (transport and chipping).
- Manipulation of the harvest product

Key facts

- Can be mounted to all conventional carrier vehicles.
- Adaptation of the rake width to individual requirements.
- Large-scale clearance possible.
- Gripping fingers can also be used as a gripper.
- Stable, low-wear model.
